

The new furnace 8 years old need a new heat exchanger \$1300 - \$1500. That is at cost plus labor to put in.

Village one ton needs front end work at least u joints / maybe wheel baring & brakes

Our one ton needs a sensor in the turbo / part & labor \$800. The clutch master cylinder is fixed. Now it has some sort of front-end noise.

We need to get the codes figured out on the pay loader.

Trees in White Creek? Release form?

Village leaves underway

Box from Kingsbury is not looking good.

Surplus equipment

We capped all the tubes we put in.

We also did potholes / at least the worst of them.

Trucks are ready for winter.

We are going to get the one tons set up soon.

We had a wind storm. The most of the damage we had was in Shushan.

Sidewalk fix by Laura's flower shop.

Thanks - Travis
